www.TBfree.org/aapi

Process on Developing Prototype:

- Conduct monthly conference call among local and national TB content experts
- Focus on developing prototype in: City of Mumbai, Chennai, Indore, Rajkot, and Villages 36 in Gujarat
- Develop a “White Paper”

Present Findings at Summit And Discuss Lessons Learned

Use prototype to scale up
Roadmap at other Cities,
Districts and Villages

XII GLOBAL HEALTH CARE SUMMIT 2018

December 28th-30th 2018

Mumbai

Example:

Roadmap Document for Indore

- Map of patients by region “hot spots”
- Identify Resources: Govt health centers- TBHV

- Identify high volume TB doctors
- Develop public private dashboard-measures to follow process and outcome measures
- Identify barriers at each sector
- Identify interventions to overcome the barrier.

Example:

Outline for “Road Map for TB Free Indore”
